

The use of pump packs ensures a controlled measured dosage with each press, reducing the amount of product wastage or 'over use'.

Pump packs deliver a significant cost in use saving and improved hand hygiene benefits over traditional 'dip-in' buckets

Once push is enough for a hand wash and prevents product from cross-contamination

For more information, contact your local Swarfega Sales Executive

Bucket

Swarfega 4ltr Pump Pack

Save up to 23% using a Swarfega 4ltr Pump Pack compared to a bucket

More hygienic than traditional dip-in buckets
